Dear Harold and Sil,

KEEP THIS CARD!

open it again on your 90th birthday and say: "that weird Tom Weaver was right! We did make it to ninety!"

By the way, Posner narrates an "oswald did it" show on satellite T.V. channel 54 - such bullshit that I had to turn it to the weather channel to see where the snowjob was coming from! That S.O.B. makes my neck vein quiver! →

You have filled
many wonderful years
with beautiful experiences
and your enthusiasm for living.
It's wonderful to see you
still having fun, still learning...
still enjoying everything
life has to offer.

HAPPY BIRTHDAY

Will contact you very soon am leaving 22 August for a week at the Outer banks God Bless you both! Tom
